PROFILE

Passionate about software development, with extensive experience as a software engineer, technology leader, good command of Java and solid knowledge in Javascript, Python and others, fast learner and focused on technical excellence and agile methodologies.

TECHNICAL ABILITIES

Principal

FullStack in MERAN (MongoDB, ExpressJS, Angular 4+, ReactJS and NodeJS)

Secondary

Software Developer in Mobile Apps.

Bonus

Data Engineer.

Programming languages

JavaScript

1. Express.JS
2. NestJS
3. Angular 4-9
4. React.JS
5. ReactiveX
6. Node.JS
7. Socket.IO
8. React Native
9. Electron.JS
10. WEIGHT
11. TypeORM

Rust

Java

1. Spring Boot
2. Spring Boot Cloud Netflix Eureka
3. JasperReport
4. Android

PHP

1. Laravel
2. PHP

IOS

1. Swift

Dart

1. Flutter

Python

1. Django

Docker

Cloud

AWS

1. Terraform con AWS
2. AWS
3. Serverless Framework

Databases

relational

1. MySQL
2. Oracle 11

non-relational

1. MongoDB

versioning

1. Git

Agile methodologies

1. Scrum
2. Kanban

IDE's

1. IntelliJ
2. VS Code
3. Eclipse
4. Apache NetBeans
5. JasperStudio
6. Android Studio
7. MongoDB Compass
8. Xcode
9. Vim/NeoVim - Terminal
10. Workbench

Model Makers

1. PrimeNG
2. Ant Design
3. Semantic UI
4. Bootstrap
5. Material UI

SQS

1. RabbitMQ

Tools

1. Yes
2. Confluence
3. BitBucket
4. GitHub
5. GitLab
6. SonarQube
7. Trello

Others

1. Teams
2. Slack
3. PostMan
4. Insomnia
5. FileZilla
6. Photoshop
7. Illustrator
8. Microsoft Office
9. CSS 3
10. Sass

PERSONAL SKILLS

1. make things happen
2. Autodidact
3. Constant Learning

4. Interaction
5. Relentless Curiosity
6. communicate findings
7. Creativity
8. Teamwork
9. Business areas
10. Storytelling

A1

PROFESSIONAL EXPERIENCE

Personal projects

Web developer

Feb 2012 – Jun 2014

Main Activities and Achievements

Web Pages – Simple website creation.

Tools

- HTML, CSS, JQuery, PHP y MySQL

Freelance

Junior Web Developer

Jul 2014 – Apr 2017

Main Activities and Achievements

Front Development – Creation of landing page and information.

Database – Creation of relational database.

Tools

- JavaScript, Bootstrap, HTML5, CSS3, JQuery, PHP y MySQL

Company. Ferremayoristas del Bajío Group.

Full Stack Developer

May 2017 - March 2020

Main Activities and Achievements

Back development – functionality sending data to API services

Front Development, for a web application (ERP, Store, Panels)

Architecture adaptation and implementation

Configuration in Linux of app's Web and Web Services

Experience in the development of GPS technologies, Mobile and website

Tools

- MEAN Stack, Ionic, Flutter & Google API

Company. signot

Full Stack Developer at MEAN

Sr Software Developer at Spring Boot

May 2020 - June 2021

Main activities

Development of a web application for Notarial Processes linked to FOVISSSTE (The contract was achieved this year).

BackEnd - Development of services/endpoints for the handling of shipping parcels and data processes.

FrontEnd - Development of a web application, for the specific use of Notary Processes.

Database - Analysis and development of entity models according to the design pattern necessary for the proper functioning of the application and its services.

Company. TCPIP

Full Stack Developer

June 2020 - August 2021

Main activities

Development of a web application for a logistics company.

BackEnd - Development of services/endpoints for the handling of shipping parcels and data processes.

FrontEnd - Development of a web application, for the specific use of shipments and parcel processes.

Database - Analysis and development of entity models according to the design pattern necessary for the proper functioning of the application and its services.

Company. neoris

Sr Software Developer

September 2021 - November 2022

Main activities

Customers

Axa.

oxxo.

BackEnd - Development of services/endpoints for the handling of shipping parcels and data processes.

FrontEnd - Development of a web application, for the specific use of issuing insurance policies to vehicle fleets.

Database - Analysis and development of entity models according to the design pattern necessary for the proper functioning of the application and its services.

Company. taurus

Sr React Native

November 2022 - January 2022

Main activities

FrontEnd - Development of a mobile application, for the specific use of everything related to the crypto exchange world.

company GBM+

Mr. SDE

January 2022 - Present

Main activities

FrontEnd - Development of a mobile application, for the specific use of everything related to the crypto exchange world.

EDUCATION

Software Development Engineering (1st Semester) Open and Distance University of Mexico.

Computer Systems Engineer (Trunco 4th Semester) Valle del Grijalva University Tuxtla Gtz, Chis 2004-2006.

COURSES

- Programmer Analyst *ITEC Tuxtla Gtz, Chis Certificate*
- WebPack *Platzi January 2018 Diploma*
- React.JS *Platzi February 2018 Diploma*
- Angular 4 *Platzi February 2018 Diploma*
- React Native *Platzi June 2018 Diploma*
- MEAN (MongoDb, Express.JS, Angular 4, Node.JS) *Udemy December 2018 Diploma*
- Socket.IO *Udemy December 2018 Diploma*
- Node.JS *Udemy January 2019 Diploma*
- Ionic 2 y 3 *Udemy March 2019 Diploma*
- Scrum Master *Udemy July 2019 Diploma*
- MongoDB *Udemy January 2020 Diploma*
- Linux Web Servers *Udemy January 2020 Diploma*
- Linux Administration BootCamp *Udemy January 2020 Diploma*
- Spring Boot Cloud Netflix Eureka *Udemy Mayo 2020 Diploma*
- DevOps - The Martial Arts of Software *Udemy July 2020 Diploma*
- Design Patterns in Javascript and NodeJS *Udemy September 2020 Diploma*
- Amazon AWS Amazon AWS Basic Course *Udemy September 2020 Diploma*
- React Native Expo: Creating a Restaurant TripAdvisor *Udemy March 2021 Diploma*
- Continuous quality management with SonarQube *Udemy March 2021 Diploma*
- Terraform - Automate AWS Infrastructures *Udemy April 2021 Diploma*
- Creating reports with JasperReport and JasperStudio *Udemy Mayo 2021 Diploma*
- Serverless in Spanish with AWS and Serverless Framework *Udemy July 2021 Diploma*
- VUE and VUEX from scratch *Campus Neoris September 2021 Diploma*
- AWS Partner: Foundations (Technical) (Classroom) *AWS Partner September 2021 Diploma*
- Introduction to the terminal and command line *Platzi January 2022 Diploma*
- Get started with Kafka: Apache Kafka course from scratch *Udemy February 2022 Diploma*
- AWS Partner: Containers on AWS *AWS April 2022 Diploma*
- NEORIS SSDLC Secure Development Process *Neoris May 2022 Diploma*
- Software Project Development Methodology *Neoris May 2022 Diploma*
- GUI tests *Neoris May 2022 Diploma*
- Boundary tests *Neoris May 2022 Diploma*
- Java Microservicios con Kafka | Spring Boot | Event Sourcing *Udemy August 2022 Diploma*
- How and why to learn Data Science and Artificial Intelligence *Platzi August 2022 Diploma*
- Business Analysis for Data Science *Platzi August 2022 Diploma*

- Fundamentals of Mathematics *Platzi August 2022 Diploma*
- Python basics *Platzi August 2022 Diploma*
- Workbench for Data Science with Jupyter Notebooks and Anaconda *Platzi August 2022 Diploma*
- Git and Github Professional *Platzi August 2022 Diploma*
- Object Oriented Programming *Platzi August 2022 Diploma*
- Intermediate Python *Platzi August 2022 Diploma*
- Python Professional *Platzi August 2022 Diploma*
- Data Manipulation and Transformation with Pandas and Numpy *Platzi August 2022 Diploma*
- Data Visualization with Matplotlib and Seaborn *Platzi September 2022 Diploma*
- App Deployment *Platzi Mayo 2023 Diploma*
- High Concurrency Architecture *Platzi Mayo 2023 Diploma*
- Building Web APIs with Rust (advanced) *Udemy June 2023 Diploma*
- Basic from Rust: Variables, Loops and Functions *Platzi June 2023 Diploma*
- BackEnd with Rust Course: Databases, Controllers and Templates *Platzi June 2023 Diploma*
